

DESERT EAGLE

RECOMMENDED AMMUNITIONS

The Desert Eagle is a semi-automatic pistol based on a non-adjustable gas system. In order to function properly, only suitable ammunition can be used. The following types of ammunition were found adequate for use in the Desert Eagle pistols. This list is a recommended list only, other types of ammunition might function as well as any of these do. **DO NOT USE LEAD BULLETS OR BULLETS WITH EXPOSED LEAD BASE IN THE DESERT EAGLE PISTOLS. LEAD WILL FILL AND CLOSE THE GAS ORIFICE HOLES IN THE BARREL.** This could damage the gas system and possibly require replacement of the barrel.

CAUTION: Lead bullets or bullets with exposed lead base will Damage the Gas System. Use Jacketed or Plated Bullets Only.
