

## **Magnum Research Introduces the New Carbo Blue Desert Eagle!**

**Press Release: 7/12/2023**

### **The New Shade of Magnums**

Pillager, MN: Magnum Research, the world-renowned manufacturer of high-performance firearms, is proud to introduce the new Carbo Blue Desert Eagle. This stunning pistol features a vibrant blue color that is sure to turn heads. The Carbo Blue finish is a Physical Vapor Deposition (PVD) coating that is applied to the Desert Eagle's frame, barrel, and slide. The controls are also finished in a titanium gold color, which provides a subtle contrast to the blue tint. This gives the gun a more elegant and refined look, while still maintaining its aggressive and powerful appearance. Whether you are a collector, a hunter, or just someone who appreciates a well-made firearm, the Carbo Blue Desert Eagle is a gun that you will be proud to own.

In addition to its beautiful looks, the Carbo Blue Desert Eagle is a powerful and reliable firearm. It is chambered in .50 AE, making it one of the most powerful handguns on the market. The Desert Eagle features a 6" barrel and integral muzzle brake, which help to reduce recoil. It measures 10.75" in overall length, and weighs 4.4 pounds. The Carbo Blue Desert Eagle comes standard with titanium gold combat sights, black rubber grips, a picatinny optics rail, and one 7-round magazine. The construction of the Mark XIX Desert Eagle utilizes the latest CNC machine technology, providing exacting specifications and tight tolerances. The result is a work of art in a precision firearm, enhanced by the beauty of the Carbon Blue finish. MSRP: \$2,621, MODEL: DE50CBG, SKU: 761226-090441

### **The Magnum Story**

Magnum Research was founded in 1979, focused on bringing the world's finest hunting handguns to market, beginning with the famous Desert Eagle pistol. The Desert Eagle was the first commercially successful autoloader chambered in a magnum cartridge, and the only one to remain in continuous production. Offered in .44 Magnum, .357 Magnum, .50 AE, and .429 DE, the Desert Eagle is a cultural icon appearing in countless movies, television shows, and video games. Magnum Research followed it with the Biggest Finest Revolver (BFR), giving hunters a super accurate, reliable handgun, in a vast number of calibers. Other popular Magnum Research products include the Baby Eagle, and MR1911 pistols; and the SwitchBolt, and Mountain Eagle rifles. In 2010, Magnum Research was purchased by Kahr Firearms Group, becoming the third brand in the family, alongside Kahr and Auto-Ordnance. Kahr Firearms Group has a dedicated team of professionals making the best firearms available to the American Shooter!
