

Magnum Research Releases Limited Edition Steampunk Desert Eagle

Press Release: 11/14/23

A Magnum Heirloom

Pillager, MN: Magnum Research, in collaboration with Dark Alliance and Koted Arms, is proud to announce the release of the Steampunk Desert Eagle, the ultimate incarnation of custom Desert Eagle craftwork. Only 20 such custom pistols will ever be produced, and each is completely unique in its own right. The Steampunk Desert Eagle is a one-of-a-kind heirloom that is intricately engraved with gears and machinery reflecting a Steampunk motif. From the slide, to the frame, and across the grips, the artists at Dark Alliance and Koted Arms used the Desert Eagle as a canvas to engrave their vision of a steampunk universe. Each gun was then coated with a Cerakote Copper and Black finish, carefully chosen to reflect an antique character and dystopian 19th Century feel. The pistols are hand taped during finishing, so no two are exactly alike. Each pistol is chambered in .50 AE, and comes with one seven round magazine. A certificate of authenticity is included, verifying that the gun is one of only 20 to ever be produced. All 20 Steampunk Desert Eagles will be offered for sale directly to the customer through the Magnum Research Custom Site. When they go live, they will go very, very fast. The Steampunk Desert Eagle is made to be shot – but that is up to the buyer. It may just be too gorgeous to take to the range. Keep your eyes on the countdown site, and be ready to buy!

The Magnum Story

Magnum Research was founded in 1979, focused on bringing the world's finest hunting handguns to market, beginning with the famous Desert Eagle pistol. The Desert Eagle was the first commercially successful autoloader chambered in a magnum cartridge, and the only one to remain in continuous production. Offered in .44 Magnum, .357 Magnum, .50 AE, and .429 DE, the Desert Eagle is a cultural icon appearing in countless movies, television shows, and video games. Magnum Research followed it with the Biggest Finest Revolver (BFR), giving hunters a super accurate, reliable handgun, in a vast number of calibers. Other popular Magnum Research products include the Baby Eagle, and MR1911 pistols; and the SwitchBolt, and Mountain Eagle rifles. In 2010, Magnum Research was purchased by Kahr Firearms Group, becoming the third brand in the family, alongside Kahr and Auto-Ordnance. Kahr Firearms Group has a dedicated team of professionals making the best firearms available to the American Shooter!
