

MAGNUM RESEARCH UNVEILS THE "250 YEARS OF LIBERTY" DESERT EAGLE

A Tribute to American Independence by Koted Arms

PILLAGER, MN – 6/17/26 - Magnum Research, Inc., maker of the world-renowned Desert Eagle pistol, is proud to announce a patriotic masterpiece celebrating the Semiquincentennial of the United States: the "250 YEARS OF LIBERTY" Custom Desert Eagle. Created in exclusive collaboration with Koted Arms Master Gunsmith, Jonathan DeVries', this limited-edition .50 AE pistol is a stunning tribute to American heritage, combining heirloom-quality craftsmanship with the legendary power of the Desert Eagle. **A LEGACY ENGRAVED IN STEEL**

This custom build serves as a functional canvas of American history. The slide prominently features deep relief engraving of the preamble **"We The People"** in historic script, flanked by ornate scrollwork. The years **"1776"** and **"2026"** adorn the slide, marking a quarter-millennium of independence, while the muzzle face is boldly engraved with **"USA"** within a shield motif, surrounded by stars. The custom lasered metal grips continue the theme with a majestic eagle and shield design, ensuring that the spirit of freedom is felt in every handling of the firearm.

HERITAGE FINISH & MATERIALS

The visual impact of the 250 Years of Liberty model comes from its striking two-tone finish, engineered for both beauty and extreme durability. The frame, slide, front sight, and hammer block feature a lustrous Hard Nickel coating, which provides a bright, durable canvas for the artwork. This is paired with a High-Temp, High-Performance Bronze PVD treatment on the barrel, grips, and all small parts, offering a distinct bronze hue and exceptional heat resistance. To ensure every artistic detail is visible, all engravings have been meticulously filled with Black Cerakote, creating a sharp, legible contrast that highlights the intricate scrollwork and text. The overall effect is to create a gun that is a work of art, paying homage to America's heritage of craftsmanship in metal working and gun smithing dating back to 1776 and earlier.

"The Desert Eagle has always been an icon of American power," said Jodi DePorter, Director of Marketing for Kahr Firearms Group. "With the 250th Anniversary model, we wanted to create something that didn't just look good, but truly honored the history of our nation and the role in civilian gun ownership in gaining our Liberty. Koted Arms has delivered a finish and design that is worthy of such a significant milestone."
